

# SPRINT 1.0.6 Release Notes

Latest release         SPRINT 1.0.6 - 04.03.2014

Previous release       SPRINT 1.0.5 - 22.11.2013

## Content

1. Scope
2. What's new in SPRINT 1.0.6
  - 2.1. Installation warning fixed
  - 2.2. Intermittent bug in pcor fixed
  - 2.3. randomForest library loaded by default

## 1. Scope

- The main change since release 1.0.5 of SPRINT is that this version of SPRINT now works with R 3.0.x

## 2. What's new in SPRINT 1.0.5

### 2.1. Installation warning fixed

Fixed the following installation warning:

```
warning: argument type 'enum commandCodes *' doesn't match specified
'MPI' type tag that requires 'int *'      [-Wtype-safety]
MPI_Bcast(&commandCode, 1, MPI_INT, 0, MPI_COMM_WORLD);
```

### 2.2. Intermittent bug in pcor fixed

Fixed an intermittent bug in pcor that caused the following warning:

```
Error in ff(dim = c(number_of_samples, number_of_samples), dimnames
= dimnames_, : length exceeds file length
```

### 2.3. randomForest library loaded by default

The randomForest library is loaded by default when SPRINT is loaded, and does not have to be explicitly loaded before calling prandomForest.
